

### **Best Newcomer to Mediation-Brandon Trust**

Brandon Trust is a charity supporting adults and children with Learning Disabilities and Autism. With a large workforce, managing workplace conflict and ways to find a resolution are key to employee wellbeing and also for maintaining a high quality service for the people we support. We are dedicated to using mediation wherever possible because we know and believe that it can lead to positive outcomes for our staff. We launched “Mediation first”, our an internal mediation scheme in May 2014 with the excellent support and training from the TCM Group. As the Scheme coordinator, with a team of qualified, highly motivated mediators I am confident that with good communication and understanding of mediation we will bring many benefits to individuals and the organisation.
